thomasd@athabascau.ca

Birth: 25 February 1953
Oshawa, Ontario, Canada

Current Clinical and Academic Positions:

Private Practice – Forensic Psychology, Neuropsychology, Trial Consulting

Associate Professor (Adjunct)
Department of Psychiatry
Faculty of Medicine
University of Calgary, 1990 to present

Professor (Adjunct)
Department of Psychology
Faculty of Social Sciences
University of Calgary, 1997 to present

Part-time Staff (Psychology)
Athabasca University
Athabasca, Alberta
1978 to present

Professor (Adjunct)
Programme in Clinical Psychology
Faculty of Graduate Studies
University of Calgary, 1997 to present

Previous Positions:

Research Associate
Faculty of Medicine
University of Calgary
and Neurological Research Programme
Alberta Children's Hospital
1979 to 1982

Sessional Instructor, 1984 to 1985;
Associate Professor (Adjunct), 1985 to 1997
Department of Psychology
University of Calgary

Assistant Professor (Adjunct)
Department of Psychiatry
Faculty of Medicine

Clinical and Forensic Psychologist
Department of Psychology
Calgary General Hospital

University of Calgary
1983 to 1990

1982 to 1992

Manager/Coordinator, Department of Psychology
Bow Valley Centre and Peter Lougheed Centre of the
Calgary General Hospital, 1997 - 2001

Associate Professor (Adjunct) 1994 to 1997
Department of Psychology
University of Calgary

Education:

B.A. (Honours) – Department of Psychology
York University
Toronto, Ontario, 1975
Thesis “Self-esteem and children’s human figure drawings”

M.A. – Department of Psychology (Applied Child Psychology)
University of Guelph
Guelph, Ontario, 1976
Thesis “The effects of methylphenidate (Ritalin) on the paired associate learning of hyperactive children in light of the total time hypothesis”

Ph.D. – Department of Psychology (Psychopathology)
University of Calgary
Calgary, Alberta, 1979
Dissertation “Cerebral organization in reading disabled children”

Societies:

American College of Forensic Psychology

tical Activities:

I have a broad training in assessment techniques including neuropsychological, personality, physiological, psychopharmacological and ability measurement. I have conducted in excess of 12,000 clinical assessments. My theoretical orientation is cognitive-behavioral and psychobiological.

For the past 25 years my clinical practice has focused on forensic applications (criminal, civil, administrative and family law). During my 18-year tenure at the Calgary General Hospital, I conducted psychological evaluations of individuals charged with criminal offenses and remanded to the inpatient forensic unit. I also provided consultations to medical and surgical units regarding diagnostic and civil competency issues.

As an administrative manager in the Calgary hospital system, I supervised the clinical activities of all psychology staff at two hospitals (Calgary General and Peter Lougheed Hospital) during my tenure. I have presented reports and have been admitted as an expert witness at all levels of the courts of law in Alberta, in Provincial Court and Supreme Court in British Columbia, in Provincial Court and Court of Queen's Bench in Saskatchewan and in the Federal Court of Canada, Trial Division. My reports have also been accepted in evidence in courts in Alberta, British Columbia, Saskatchewan, Manitoba, Ontario, Nova Scotia, Newfoundland, Northwest Territories, the Yukon and U.S. Federal Court. In addition to

providing documentary reports to the courts, I have given *viva voce* evidence on over 780 occasions. My opinions have also been accepted in hearings before boards of fourteen different professional/regulatory organizations. I have been retained by professional regulatory bodies as consultant and investigator. In concert with my clinical practice, I have supervised the training of psychology Ph.D. interns and students in forensic psychology and neuropsychology and contribute to the training of law students through participation in legal seminars and trial advocacy workshops. My work with police forces has been to develop investigative strategies, perpetrator profiles and to provide general organizational consultation. My activities with the RCMP have included providing selection services for international service and internal course suitability.

In my practice, I provide consultations to lawyers on both civil and criminal matters. I also provide consulting services to business and insurance organizations on issues such as workplace conflict, mental health and risk evaluation, as well as providing consulting and clinical services to public institutions (e.g., Royal Canadian Mounted Police; Correctional Service Canada; Department of National Defence; Federal Department of Justice; Workers' Compensation Board; National Parole Board; City of Calgary; Alberta Mental Health Board). I hold international credentials for clinical practice of psychology.Ψ
